

 **par**® | EverServ® 8000 Series

PAR is introducing the EverServ® 8000 Series, to enhance guest experience and maximize business performance. PAR's sophisticated platform is customizable, allowing multiple configurations, and it increases energy efficiency and performance using the newest generation Intel technology. The sleek, modern, small footprint terminal provides all the power you need to run your business.

Using over 35 years of experience and expertise, PAR has revolutionized POS hardware design by combining the evolution of the restaurant industry with global customer feedback to unveil our 8th Generation terminal.

# ALWAYS A STEP AHEAD. FUTURE PROOF DESIGN. BUILT TO LAST.

- **INCREASED SPEED & PERFORMANCE:** On order taking at the drive through and the counter to help reduce customer wait times and increase the number of orders in Quick Serve, Fast Casual, and Retail environments.
- **LONGEVITY OF LIFECYCLE:** A new generation platform, taking advantage of the latest Intel processor technology and chipsets for superior product, performance, with longer time in between upgrades.
- **DURABILITY TO WITHSTAND ENVIRONMENT:** Yet elegant industrial design to complement restaurant décor through the use of poly carbonate injection molded textured plastics and aluminum components. The EverServ® 8000 Series will endure chemicals used in your restaurant environment, and will repel water and infiltration.
- **OPTIMAL GUEST EXPERIENCE:** Enhanced customer engagement by enabling the terminal operator to articulate the height of the POS terminal, allowing for easier conversational selling, better user ergonomics, and creating more personal interaction.
- **FLEXIBILITY:** A single, small footprint platform that can be deployed out of the box on a VESA compliant pole or wall mount, on the store counter, or as a kiosk with no additional hardware to meet location design and needs.
- **EASE OF INSTALLATION AND SERVICEABILITY:** A simple to deploy and service system making use of a unique cabling system, tool-less chassis, and plug and play capability for new and legacy peripherals like cash drawers, scanners and printers.
- **ASSEMBLED IN THE USA:** PAR is reshoring manufacturing efforts to its headquarters in Upstate New York with this new generational terminal.

(standard config)

## WEIGHT:

Terminal Only: 14.72 lbs Terminal  
w/ customer display & power brick: 16.66 lbs

## PAR POS Software

### Brink POS® Cloud Based Software

Different from ordinary POS systems, Brink POS® is a cloud-based software solution. No back office server is required; your data is safe, secure, and accessible in the cloud.

- Automatic Upgrades
- Secured Data
- Accessible Anywhere
- Fault Tolerant
- Online & Mobile Ordering
- Customer Loyalty Programs
- Enterprise Reporting
- Multi-Unit Management

Brink POS® is provided as a monthly service; there are no large up-front software licensing fees. Plus, upgrades are included and performed automatically.

If connectivity issues arise, Brink POS® will continue to operate in “offline” mode and then automatically synchronize all data and transactions when the connection is restored.

### PixelPoint POS® Software

Flexible & Powerful, PAR EverServ® PixelPoint® POS software is designed for use in any and all restaurant concepts from quick service to table service. PixelPoint is a flexible and customizable software that adapts to your business rather than forcing you to change your processes.

With our HeadOffice Cloud and HeadOffice Subscription offerings, PixelPoint provides enterprise software solutions that take advantage of public and private cloud hosting.

#### PixelPoint also offers:

- Reduced Initial Investment
- Simplified Web-based Activation
- Extended Mobile POS Capabilities
- Advanced Security, Compliance and Fiscal Features

The PixelPoint POS software license is now provided as a monthly service option. Restaurants now have the option to experience a proven and full-feature PixelPoint POS through a low monthly fee or the traditional perpetual license option.

## PAR Services

PAR offers a variety of services to accommodate your business hardware and software needs.

- Professional Services
- Managed Services
- Field Services / Depot
- Service Account Management
- Help Desk
- Remote Care
- Advanced Exchange
- On-site Field Service

## PAR EverServ Peripherals

### PAR POS Printer

#### High Speed, Reliable and Economical
